Education

Coimbra Institute of Engineering   2016
                                          Coimbra, PT
Computer Software Engineering Coursework

Professional Experience

eve Sleep | Web Developer   London, UK | Mar '19—Present
evesleep.co.uk

Environment: Laravel, PHP, Vue.js, ES6, HTML5

- Worked in a team of 6 developers, collaborating with designers and product managers in an agile environment, following the end-to-end application lifecycle process to drive successful platform improvements
- Delivered presentations to the company demonstrating the features in development and outlining the expected and/or achieved results

A/B Testing

- Modified existing functionality to support the testing of proposed changes to customer-facing elements

Project: Navigation | Developer

Description: A leaner, more adaptable solution for handling the site's dynamic navigation
Environment: PHP, Laravel, Vue.js, HTML5, SCSS

- Coordinated with team members to successfully implement and deliver a new navigation solution which was validated by user testing to significantly improve navigation efficiency

Software Development & Maintenance

- Conceptualized, implemented the code logic and developed the database structure
- Engineered a Vue.js component for configuring the navigation data in our in-house CMS

Project: Promotions | Developer

Description: A system for delivering promotional messaging to customers
Environment: PHP, Laravel, ES6

- Refactored the existing ES2015 + jQuery implementation to an ES6 module, removing deprecated functionality and improving its maintainability
- Improved accuracy of promotional messaging targeting

Horta na Cidade | Freelance Developer   Coimbra, PT | Dec '18—Mar '19
bioconsumo.brunosabenca.com

Environment: Laravel, PHP, Vue.js, HTML5, Bootstrap

- Analysed the day-to-day operations of the group to identify inefficiencies and developed a software solution that offers improved usability to the group's participants and administrators
